Better Buildings Program administered by the
Maryland Department of Housing and Community Development
and funded by the US Department of Energy through an
Energy Efficiency Conservation Block Grant award.*

What is the Be SMART Business Loan Program?

The Be SMART Business Loan Program offers innovative financing to improve commercial building energy efficiency through replacement and upgrading of appliances, heating, cooling and ventilation systems and whole building envelope improvements.

The Be SMART Business Loan Program offers two types of loans: **Be SMART Business** and **Be Smart Business Plus**.

Who is Eligible?

Business and commercial building owners, with preference given to projects located in the city and/or town limits of the following state-designated Main Street Maryland communities:

Berlin	Elkton
Cambridge	Havre de Grace
Chestertown	Oakland
Cumberland	Princess Anne
Denton	Salisbury
Dundalk	Takoma Park
Easton	Westminster
Frostburg	Baltimore City A&E

Loan approval will also be based on:

- Business' ability to service the debt
- Credit score of business owner
- Minimum 15% savings from energy saving cost measures

Be SMART Business Loan Programs			
Be SMART Business			
Main Street Improvement Program for upgrading of energy efficient appliances, heating and cooling systems, programmable thermostats, ceiling fans, insulation, windows and doors or any eligible use		Up to \$50,000	Up to 5% Unsecured Up to 5 year term
<i>Example:</i> A restaurant upgrades appliances to Energy Star	Energy savings per year: \$447 Commercial refrigerator \$140, Ice machine \$154, Commercial Heat pump \$153 (based on Energy Star savings calculators at http://www.energystar.gov/index.cfm?c=sb_guidebook.sb_guidebook http://www1.eere.energy.gov/femp/technologies/eep_eccalculators.html) Cost savings continue for useful life of appliances up to 15 years	\$10,000 loan for 5 years @3%	Payments \$179/month
Be SMART Business Plus			
Larger energy efficiency optimization projects with a focus on energy cost saving measures for buildings exceeding 6,000 sq. ft. or extensive energy efficient retrofits		Loan Amount determined by project energy cost saving measures	Up to 5% Secured Up to 15 year term
Energy represents as much as 30% of a building's operating costs. Now consider this: undertaking energy efficiency measures can reduce energy consumption - and thus, utility bills - by 30% or more. These savings add directly to the bottom line. A 30% reduction in energy consumption can lower operating costs by \$25,000 per year for every 50,000 square feet of office space. The best part is that these improvements to energy efficiency can often be attained through no-cost or low-cost projects that also enhance the indoor environment of commercial office buildings. http://www.fypower.org/bpg/index.html?b=offices			

How Do You Get a Be SMART Business Loan?

1. Verify that your business is in an eligible area.
2. Provide us with a complete application which can be found on our website at: www.md.housing.org/besmart; or can be provided by your area Green Team or Main Streets representative.
3. Let us do an Energy Audit of your business and include energy saving measures as part of your loan application. (No cost during introductory period.)
4. Choose an eligible contractor (www.mdhousing.org/besmart) to receive an estimate for your energy efficiency improvements.
5. Once your loan is approved, you will receive a commitment.
6. Upon closing your loan, funds will be disbursed by DHCD on a draw basis after inspection. Loans require inspector confirmation that work has been completed to specifications.
